Our Green Policy

OUR BELIEFS:

We believe that it is our responsibility to **reduce the negative impact our actions** have on the environment.

We believe a sustainable tourism business fulfils **economic, environmental, and socio-cultural obligations** while generating income, contributing to employment, maintaining cultural integrity, and preserving essential ecological processes and biological diversity.

OUR COMMITMENT:

We are commitment to taking a pro-active approach to implementing our Green Policy within the following strategic areas of our business operations:

1. Shifting our **purchasing / procurement** practices
2. Making positive **operational** changes
3. Implementing responsible **waste management** practices
and
4. Actively communicating to and **encouraging our customers** to support and get involved in our activities.

The attached chart outlines our Organizations 'Guiding Principles'. This chart outlines the actions we will take to implement a 'greener' approach to business operations and planning.

STAFF DIRECTIVES:

1. All staff will be familiar with entire the organizational 'Green Policy'
2. All staff will play an active role in supporting and implementing this policy
3. All staff will be responsible to implementing designated parts of this policy
4. All staff will commit to contributing to continuous improvement of our policy
